

# AMICA International Automatic Musical Instrument Collectors' Association Honor Roll

**Larry Givens** earned his entrance into the AMICA Hall of Fame through writing *Rebuilding the Player Piano* (1963, Vestal Press). His book was, according to the dust cover, intended for those who had never rebuilt a player piano before. Not being content with the simpler player, Givens went on to cover the Ampico, the Duo-Art, and the Welte, nickelodeons and reed organs.
